Camp Programme – Green Cup Edition

Umbriaverde Shooting Range – Massa Martana (PG), Italy

In four days, you will change the way you shoot by mastering everything behind the target.

Technique on the range (MasterTarget), mindset in the classroom (MasterMind), physical preparation (MasterFit), nutrition (MasterEnergy) and knowledge of your shotgun (MasterTech). Shooting Data tracks your progress every step of the way.

A coach will support you throughout the camp—Emanuele Bernasconi, Andrea Miotto or Antonello Iezzi. You will also spend a full day with a Special Guest from the Beretta Olympic Team.

25 May 2027 · Start with your technique

09:00–10:00 | Check-in. Collect your **Beretta Premium Technical Kit** and register with **Shooting Data**. From this point on, your data is tracked.

10:00–13:00 | MasterTarget. Your first rounds on the range and a technical assessment. What you take away: a clear starting point for your technique.

13:00–14:00 | Lunch at the shooting range.

14:00–18:00 | MasterTarget. Begin your technical improvement journey. What you take away: you know exactly what to work on.

26 May 2027 · Train your mind, then return to the range

09:00–10:00 | MasterTarget. Continue on the range with the work from the previous day.

11:00–13:00 | MasterMind, in the classroom. Stress management and visualization. What you take away: your own mental routine to stay focused on the shot, even in the most tense finals.

13:00–14:00 | Lunch at the shooting range.

14:00–18:00 | MasterTarget. Put the morning's advice into practice on the range right away.

18:00–19:00 | Try your dream shotgun: [Beretta SL2](#).

27 May 2027 · Body, energy and a champion's perspective

09:00–10:00 | MasterFit. Joint mobility and shooter-specific warm-up exercises tailored to your physique. What you take away: stability and responsiveness on the range.

10:00–11:00 | MasterEnergy. Nutrition advice. What you take away: mental clarity and visual energy from the first station to the last.

11:00–13:00 | MasterTarget. Continue your improvement journey. What you take away: success through a winning strategy

13:00–14:00 | Lunch at the shooting range.

14:00–18:00 | **MasterTarget with the Special Guest.** They share their approach and how they see the target.

18:00–19:00 | Try your dream shotgun: [Beretta SL2](#).

28 May 2027 · Inside Beretta, then back to the range

09:00–10:00 | **MasterTech.** Ballistics and firearm engineering, explained directly by Beretta Research and Development. What you take away: a deeper understanding of how to use your shotgun.

10:00–13:00 | **MasterTarget.** More time on the range to consolidate everything you have learned

13:00–14:00 | Lunch at the Umbriaverde Shooting Range restaurant.

14:00–16:00 | **MasterTarget.** Final 50-target competition. Awards ceremony and presentation of participation certificates

3. Why take part

Start with data, not impressions. Shooting Data tracks your performance from check-in to the final session on the range.

Work with people who know how to teach. A coach selected from Emanuele Bernasconi, Andrea Miotto and Antonello Iezzi, plus a full day with a Special Guest from the Beretta Olympic Team.

Train the shooter, not just the shot. Technique, mind, body, nutrition and firearm knowledge in a single programme.

Experience Beretta up close. Try the SL2.

Put yourself to the test. Experience the 25-powder-target competition and finish the camp with a final technical training session.

4. Practical information

When: 25–28 May 2027

Where: Umbriaverde Shooting Range, Massa Martana (PG), Italy

Format: residential camp, with hotel accommodation included.

Price: 1.699 €
